Manufacturer's website : www.carmignac.com

Date of production of the KID : 16/02/2024

WHAT IS THIS PRODUCT?

TYPE

Carmignac Portfolio Climate Transition is a segregated sub-fund of Carmignac Portfolio SICAV, an investment company with variable capital regulated by Luxembourg law and qualifying as UCITS pursuant to Directive 2009/65/CE.

TERM

The SICAV was launched on 30/06/1999 for unlimited period. The sub-fund was launched on 03/03/2003.

OBJECTIVE

The sub-fund aims to outperform its reference indicator, the MSCI AC WORLD NR (USD) index (Bloomberg code: NDUACWF), calculated with net dividends reinvested, then converted into euro for EUR Shares, and into the relevant reference currency for unhedged Shares. over a recommended investment period of five years. The sub-fund seeks to invest sustainably for long-term growth and pursues a thematic approach for a positive environmental contribution.

The sub-fund invests mainly in international equity markets. The fund can invest up to 10% of the net assets in bonds with a rating below investment grade. The fund manager seeks to invest thematically in companies that provide products or services that are addressing climate change mitigation, such as companies providing low carbon solutions, enabling emissions reductions, or undertaking activities that contribute to a transition to net zero emissions by 2050 (including companies involved in the more efficient extraction of commodities). The portfolio manager implements a bottom-up analysis, complemented by a fundamental top-down approach. Stock selection is completely discretionary and relies on the portfolio manager's expectations and financial analysis. The sub-fund may invest on an ancillary basis in debt securities (such as fixed and/or floating rate bonds), and/or money market instruments. The portfolio manager reserves the right to invest up to 10% of the net assets in bonds with a rating below investment grade.

The sub-fund uses derivatives for hedging or arbitrage purposes, and/or to expose the portfolio to the following risks (directly or via indices): equities (all categories of capitalisation), currencies, fixed income, dividends, ETF, credit, volatility, variance (the latter two categories for up to 10% of net assets) and commodities. The derivatives available are options (vanilla, barrier, binary), futures and forwards, swaps (including performance) and CFDs (contracts for difference) on one or more underlyings. The sub-fund may invest up to 10% of its net assets in units or shares of UCIs. Up to 10 % of the net assets may be invested in contingent convertible bonds ("CoCos"). CoCos are regulated subordinated debt instruments that are complex, but consistent in nature. Please refer to the prospectus for more information

The sub-fund is an actively managed UCITS. The investment manager has discretion over the composition of its portfolio, subject to the stated investment objectives and policy. The sub-

fund's investment universe is at least partly derived from the reference indicator. The sub-fund's investment strategy is not dependent on the reference indicator; therefore, the sub-fund's holdings and the weightings may substantially deviate from the composition of the Reference indicator. There is no limit set on the level of such deviation.

The sub-fund promotes environmental/social characteristics in accordance with Article 8 of the Sustainable Finance Disclosure Regulation ('SFDR'). Through best-in-universe and best-effort approaches, the sub-fund invests at least 30% of its net assets in shares of companies that (i) derive at least 10% of their revenue, or invest at least 10% of their CapEx in business activities that contribute to climate change mitigation and climate change adaptation according to EU Taxonomy standards regulation (EU) 2020/852, or (ii) invest at least 10% of their CapEx in efficient commodity extraction, key to industrial supply chains that contribute to mitigating climate change. The Sub-Fund's carbon emissions may be higher than a low carbon fund or benchmark as the fund is not only seeking to invest in low carbon solutions, but also in companies that are transitioning or that are enabling green activities. The sustainability risk of the sub-fund may differ from that of its reference indicator.

INTENDED RETAIL INVESTOR

This sub-fund is intended for all types of investors, be they natural persons or legal entities, seeking to diversify their investment via international stocks. Given the exposure of the sub-fund to the equity market, the recommended investment period is over 5 years, due to the sub-fund's exposure to the equity market.

The appropriate amount to invest in this fund depends on the personal situation of the investor, their knowledge of investment products and experience, their personal wealth, their cash requirements now and in the future, and their degree of risk aversion.

OTHER INFORMATION

Investments may be redeemed each business day on request. Subscription, redemption or conversion requests are centralised on each NAV calculation and publication day before 18:00 CET/ CEST and are executed on the next business day using the previous day's NAV

The Depository of the sub-fund is BNP Paribas, Luxembourg branch.

This is an accumulation share.

The fund prospectus and latest key information document, as well as the latest annual report are available on the website www.carmignac.com, directly from the manufacturer or on the website www.fundinfo.com. Information on past performance for the last 10 years, where this data is available, and calculations of monthly past performance scenarios are available on the website www.carmignac.com.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator : the summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Risks to which the sub-fund may be exposed and which could lead to a fall in the net asset value to which the indicator gives too little consideration:

- Risks associated with China: investing in this sub-fund entails risks associated with China, especially risks associated with the use of Stock Connect (a system facilitating equity investment in the A shares market via a Hong Kong-based entity acting as the sub fund's nominee). Investors are advised to familiarise themselves with the specific risks of this system, as well as with other risks linked to investments in China (CIBM, RQFII status...) as outlined in the prospectus.
- Counterparty risk: the sub-fund may suffer losses if a counterparty defaults and is unable to meet its contractual obligations, especially in the case of derivatives traded OTC
- Liquidity risk: the markets in which the sub-fund participates may be subject to temporary illiquidity. These market distortions could have an impact on the pricing conditions under which the sub-fund may have to liquidate, initiate or modify its positions.

The length of the recommended holding period is 5 years.

If the sub-fund is denominated in a currency other than the applicable currency of the legal tender of the Member State where the PRIIP is being marketed, the return the retail investor gets, when expressed in the currency of the Member State where the PRIIP is being marketed, may change depending on currency fluctuations.

This product does not include any protection from future market performance so you could lose some or all of your investment.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity of the fund to pay you.

PERFORMANCE SCENARIOS

The unfavourable, moderate and favourable scenarios shown represent examples using the best and worst performance, as well as the average performance of the product over the last ten years. Markets may develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

Recommended holding period:		5 years	
Example Investment:		10 000 EUR	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	1 110 EUR	1 060 EUR
	Average return each year	-88.90%	-36.16%
Unfavourable	What you might get back after costs	6 070 EUR	5 730 EUR
	Average return each year	-39.30%	-10.54%
Moderate	What you might get back after costs	9 490 EUR	9 680 EUR
	Average return each year	-5.10%	-0.65%
Favourable	What you might get back after costs	16 250 EUR	13 010 EUR
	Average return each year	62.50%	5.40%

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

The figures shown include all costs of the product itself, but not necessarily all charges due to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

- The unfavourable scenario occurred for an investment between March 2015 and March 2020.
- The moderate scenario occurred for an investment between August 2015 and August 2020.
- The favourable scenario occurred for an investment between January 2016 and January 2021.

WHAT HAPPENS IF CARMIGNAC GESTION LUXEMBOURG IS UNABLE TO PAY OUT?

For your protection, the assets of the fund are held with a separate entity, the custodian, so that the fund's ability to pay would not be affected by the insolvency of the management company. In the event of failure of the latter, the assets of the product held by the depository will not be affected. In the event of default by the depository, the risk of financial loss of the product is mitigated due to the legal segregation of the assets of the depository from those of the product.

WHAT ARE THE COSTS?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that these costs will have on your investment.

Cost over time

The amounts shown here are the cumulative costs of the product itself, for two different holding periods. They include potential early exit penalties. The figures assume you invest 10 000,00 EUR. The figures are estimates and may change in the future.

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

On this shareclass, the maximum conversion fee is 1,00 %.

	If you exit after 1 year	If you exit after 5 years
Total costs	683 EUR	1 978 EUR
Annual cost impact (*)	6.8%	3.8% each year

*This table illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0,2% before costs and -3,6% after costs."

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	4,00 % of the amount you pay in when entering this investment. This is the most you will be charged. Carmignac Gestion Luxembourg doesn't charge any entry fee. The person selling you the product will inform you of the actual charge.	Up to 400 EUR
Exit costs	We do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1,80% of the value of your investment per year. This estimate is based on actual costs over the past year.	180 EUR
Transaction costs	0,32% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on the quantity we buy and sell.	32 EUR
Incidental costs taken under specific conditions		
Performance fees	20,00% when the share class overperforms the Reference indicator during the performance period. It will be payable also in case the share class has overperformed the reference indicator but had a negative performance. Underperformance is clawed back for 5 years. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years, or since the product creation if it is less than 5 years.	83 EUR

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Due to the sub-fund's exposure to the equity market, the recommended investment period is over 5 years.

However, you can redeem your investment without incurring any penalties at any point during this period, or stay invested for longer.

Redemptions are possible each business day. In exceptional circumstances, your right to request the redemption of your investment may be suspended.

HOW CAN I COMPLAIN?

If you have any complaints about the product, the conduct of the manufacturer or the person that advised on or sold this product, you can contact the initiator by e-mail to complaints@carmignac.com, by letter to 7 Rue de la Chapelle, 1325 Luxembourg, Luxembourg or by phone calling the number (+352) 46 70 60 1.

In all cases, you must clearly state your contact details (name, address, telephone number and email address) and give a brief explanation of your complaint. More information is available on our website www.carmignac.com.

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

OTHER RELEVANT INFORMATION

The sub-fund may comprise other types of unit. You can find more information on these units in the prospectus or on the website: www.carmignac.com.

This sub-fund's units have not been registered under the US Securities Act of 1933. They may not be offered or sold, directly or indirectly, to or on behalf of a US person as defined in US Regulation S. Depending on your tax status, any capital gains and income resulting from the ownership of units of the fund may be subject to tax. We advise you to obtain further information in this regard from the promoter of the fund or from your tax advisor.

The manufacturer may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus.
