Name of the initiator's Supervisory Authority: Carmignac Gestion is a fund management company authorised in France and regulated by the Autorité des marchés financiers (AMF) (GP97008).
Date of production of the KID: 19/11/2026

WHAT IS THIS PRODUCT?

TYPE

Carmignac Credit 2033 is a French common fund (Fonds Commun de Placement – FCP), governed by European Directive 2009/65/EC (UCITS)

TERM

The fund was launched on 19/11/2026 for a period of 99 years, except in the cases of early dissolution or extension.

OBJECTIVES

The investment objective is to achieve an annualised return, net of management fees, greater than 3.98%, recorded between the Fund's inception date and 31 October 2033 (the "Maturity Date").
This return, generated primarily through a buy-and-hold bond strategy, is net of management fees, currency hedging costs, estimated default losses and any capital losses realised on the sale of certain instruments prior to maturity. This objective is based on market assumptions established by the portfolio manager at the time of the Fund's inception and is valid only for subscriptions made at that time. For subsequent subscriptions, performance will depend on market conditions at that time, which we cannot predict and which may therefore result in divergent performance. This objective does not constitute a promise of returns. The actual financial condition of issuers may be worse than expected, which could result in a decline in the Fund's performance. The investment strategy consists of building a diversified portfolio of debt securities and securitisation instruments held until the Maturity Date. The portfolio may comprise securities of all maturities, including those with maturities longer than that of the Fund. The weighted-average rating of the portfolio at the end of the build-up phase will be at least "investment grade". A financial instrument whose rating deteriorates during the Fund's term is not automatically sold. Consequently, the portfolio's weighted-average rating may decline (including below "investment grade") due to the downgrade of one or more securities in the portfolio. Although the portfolio thus constructed is intended to be held until the Maturity Date, the portfolio manager reserves the right to buy or sell securities in the portfolio, particularly if he/she anticipates a deterioration in a security's risk profile or identifies an investment opportunity consistent with the Fund's objective and strategy. However, no new investment may result in the portfolio's weighted-average rating falling below "investment grade." As the Maturity Date approaches, the Fund will adopt a prudent management approach during the divestment phase. Securities will be held until maturity or, particularly in the case of securities with a maturity exceeding that of the Fund, sold. The fund may invest up to 110% of its net assets in corporate or sovereign bonds, without sector or geographic restrictions (up to a limit of 30% in non-OECD countries, including emerging markets), including speculative grade bonds up to a limit of 50% of net assets. The Fund may also invest up to 40% of its net assets in securitisation instruments, including collateralised loan obligations (CLOs). The portfolio's direct and indirect exposure to credit risk, including exposure arising from the use of forward financial instruments, will not exceed 120%. The Fund's duration ranges from 0 to 7. This duration will decrease over time and will be no more than 2 at the end of the holding period. Prior to the Maturity Date, and depending on prevailing market conditions, the management company will opt either to continue a similar investment strategy with a new target maturity date, or to merge the fund with another UCITS, or to wind up the fund, subject to AMF approval. The fund has no reference indicator. The fund is an actively managed UCITS. The investment manager has discretion over the composition of the portfolio, subject to compliance with the stated investment objectives and policy.

INTENDED RETAIL INVESTOR

Due to the maturity date of the fund, it is suitable for investors who do not plan to withdraw their money before 31 October 2033, and whose goal is to grow their investment without any capital guarantee.

The appropriate amount to invest in this fund depends on the personal situation of the investor, their knowledge of investment products and experience, their personal wealth, their cash requirements now and in the future, and their degree of risk aversion.

OTHER INFORMATION

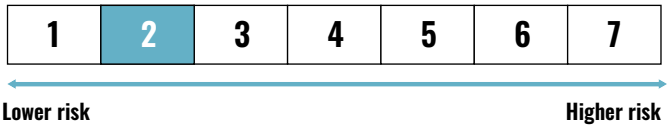

This unit is an accumulation unit.
Investments may be redeemed each business day on request. Subscription and redemption requests are centralised on each NAV calculation and publication day before 1.00pm CET and are executed on the next business day using the previous day's NAV.
The Fund's custodian is BNP Paribas, S.A.
The fund prospectus and latest key information document, as well as the latest annual report are available on the website www.carmignac.com.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator : the summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Risks not sufficiently considered by the indicator include:

- Counterparty risk: the fund may suffer losses if a counterparty defaults and is unable to meet its contractual obligations, especially in the case of derivatives traded OTC.
- Credit risk: the fund is invested in securities whose credit rating may decline, meaning there is a risk that the issuer may not be able to meet its commitments. Should an issuer's creditworthiness deteriorate, the value of the bonds or derivatives linked to this issuer may fall.
- Liquidity risk: the markets in which the fund participates may be subject to temporary illiquidity. These market distortions could have an impact on the pricing conditions under which the fund may be caused to liquidate, initiate or modify its positions.

The recommended investment period is from the launch date to the maturity date, i.e. 31 October 2033

If the product is denominated in a currency other than the applicable currency of the legal tender of the Member State where the PRIIP is being marketed, the return the retail investor gets, when expressed in the currency of the Member State where the PRIIP is being marketed,may change depending on currency fluctuations.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The summary risk indicator shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 2 out of 7, which is a low risk class.

PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average and best performance of the product over the last 10 years. Markets may develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

Recommended holding period:		**31-10-2033**	
Example Investment:		**10 000 €**	
		If you exit after 1 year	**If you exit after 31-10-2033**
Scenarios	**Scenarios**		
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	**What you might get back after costs**	7 950 EUR	7 590 EUR
	Average return each year	-20,50 %	-3,85 %
Unfavourable	**What you might get back after costs**	9 440 EUR	10 430 EUR
	Average return each year	-5,62 %	0,60 %
Moderate	**What you might get back after costs**	10 210 EUR	12 140 EUR
	Average return each year	2,15 %	2,81 %
Favourable	**What you might get back after costs**	11 190 EUR	13 340 EUR
	Average return each year	11,86 %	4,20 %

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

The figures shown include all costs of the product itself, but not necessarily all charges due to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

- Unfavourable scenario: This type of scenario occurred for an investment between September 2015 and September 2022
- Moderate scenario: This type of scenario occurred for an investment between January 2017 and January 2024
- Favourable scenario: This type of scenario occurred for an investment between February 2019 and February 2026

WHAT HAPPENS IF CARMIGNAC GESTION IS UNABLE TO PAY OUT?

The fund is a co-ownership of financial instruments and deposits separate from the management company. In the event of the latter's default, the product's assets held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss of the product is mitigated due to the legal segregation of the assets of the depositary from those of the fund. There is no compensation or guarantee system in place that would fully or partially offset this loss.

WHAT ARE THE COSTS?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that these costs will have on your investment over time.

Costs over time

The amounts shown here are the cumulative costs of the product itself, for two different holding periods. They include potential early exit penalties. The figures assume you invest 10 000,00 €. The figures are estimates and may change in the future.

	If you exit after 1 year	If you exit after 31-10-2033
Total costs	219 EUR	1 204 EUR
Annual cost impact (*)	2.20 %	1.40 %

* The Reduction in Yield (RIY) illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.21 % before costs and 2.81 % after costs. The total costs take into account one-off, ongoing and incidental costs.
These figures include the maximum distribution fee that the person selling you the product may charge (1.00% of amount invested). This person will inform you of the actual distribution fee.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Max. 1.00% of the amount you pay in when entering this investment. This is the most you will be charged. Carmignac Gestion does't charge any entry fee. The person selling you the product will inform you of the actual charge.	Up to 100 EUR
Exit costs	We do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.14% of the value of your investment per year. This estimate is based on actual costs over the past year.	113 EUR
Transaction costs	0.06% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on the quantity we buy and sell.	6 EUR
Incidental costs taken under specific conditions		
Performance fees	Up to 20% of the outperformance when the fund outperforms its annualized performance target during the performance period. Underperformance is clawed back for 5 years. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	0 EUR

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

The recommended investment period is until the Maturity Date, i.e. 31 October 2033. However, you can redeem your investment without penalty at any time during this period. Redemptions can be made on any business day. In exceptional circumstances, the management company may temporarily restrict redemptions in order to protect investors' interests. For example, a mechanism to cap redemptions (gates) may be triggered when net redemptions exceed 5% of the fund's net assets, resulting in the partial execution of redemption requests and the deferral of the remainder to one or more subsequent net asset value calculation dates. In addition, a swing pricing mechanism has been introduced. Under swing pricing, the net asset value is adjusted when net subscriptions and redemptions reach certain thresholds, so as to cover the cost of rebalancing the portfolio following significant subscriptions/redemptions and thereby protecting the interests of unitholders.

HOW CAN I COMPLAIN?

If you have any complaints about this product, the conduct of the manufacturer or of the person who recommended or sold this product to you, you can use different means of communication: you can lodge them by email to complaints@carmignac.com, by post to 24 Place Vendôme, 75001 Paris, France, or by telephone on (+33) 01 42 86 53 35. In all cases, you must clearly state your contact details (name, address, telephone number and email address) and give a brief explanation of your complaint. More information is available on our website www.carmignac.com. If there is no response within two months or if you consider the response provided by Carmignac Gestion unsatisfactory, you can contact the AMF Ombudsman by letter or using the online form (https://www.amf-france.org/en/amf-ombudsman).

OTHER RELEVANT INFORMATION

The fund may comprise other types of unit. You can find more information on these units in the prospectus or on the website: www.carmignac.com. This fund's units have not been registered under the US Securities Act of 1933. They may not be offered or sold, directly or indirectly, to or on behalf of a US person as defined in US Regulation S and FATCA. Depending on your tax status, any capital gains and income resulting from the ownership of units of the fund may be subject to tax. We advise you to obtain further information in this regard from the promoter of the fund or from your tax advisor. The manufacturer may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus. Monthly history of performance scenarios and past performance: https://go.carmignac.com/performance-scenario When this product is used as a unit-linked support for a life insurance or capitalization contract, the additional information on this contract, such as the costs of the contract, which are not included in the costs indicated in the this document, the contact in the event of a claim and what happens in the event of failure of the insurance company are presented in the key information document of this contract, which must be provided by your insurer or broker or any other intermediary of insurance in accordance with its legal obligation.
