INVESTMENT OBJECTIVE

Carmignac Credit 2029 is a target maturity bond fund that follows a buy-and-hold strategy on credit markets. With a careful selection of issuers, a target performance objective and predetermined end date**, Carmignac Credit 2029 gives investors visibility over their investment and diversifies the risks to which they are exposed. The Fund targets an annualised performance (net of management fees) between its inception on 20/09/2023 and maturity on 28/02/2029, as described in the prospectus for each unit.

The objective does not constitute a promise of return or performance, the performance is not guaranteed.

PERFORMANCE

Past performance is not necessarily indicative of future performance. Performances are net of fees (excluding possible entrance fees charged by the distributor).

GLOSSARY

Active Management: An investment management approach where a manager aims to beat the market through research, analysis and their own judgement. See also Passive management.

Bottom up investing: Investment based on analysis of individual companies, whereby that company's history, management, and potential are considered more important than general market or sector trends (as opposed to top down investing).

Credit cycle: A credit cycle describes the different phases of access to credit by borrowers. It alternates between periods of easily accessible funds to borrow due to low interest rates and periods of contraction where lending rules are more restrictive and interest rates are higher.

FCP: Fonds commun de placement (French common fund).

High yield: A loan or bond rated below investment grade because of its higher default risk. The return on these securities is generally higher.

Investment grade: A loan or bond that rating agencies have rated AAA to BBB-, generally indicating relatively low default risk.

Modified duration: A bond's modified duration measures the risk attached to a given change in the interest rate. Modified duration of +2 means that for an instantaneous 1% rate increase, the portfolio's value would drop by 2%.

Non-benchmarked: Portfolio construction is a result of Fund manager views and market analysis with no bias to any benchmark.

Rating: The rating measures the creditworthiness of a borrower (bond issuer).

SFDR Fund Classification: Sustainable Finance Disclosure Regulation (SFDR) 2019/2088. EU Act that requires asset managers to classify funds into categories, "Article 8" funds promote environmental and social characteristics, "Article 9" funds have sustainable investments as a measurable objective. In addition to promoting environmental or social characteristics, "Article 6" funds have no sustainable objectives. For more information, please refer to <https://eur-lex.europa.eu/eli/reg/2019/2088/oj>

UCITS: Undertakings for Collective Investments in Transferable Securities.

UCITS funds are authorised funds that can be sold in any country in the EU. UCITS III regulations allow funds to invest in a wider range of financial instruments, including derivatives.

Yield to Maturity (EUR): This is the yield to maturity in euro (including the cost of hedging investment currencies and before management fees) calculated on the assumption that the bonds making up the portfolio will be repaid at maturity.

Yield to Worst (EUR): This is the lowest yield to maturity in euro (including the cost of hedging investment currencies and before management fees) calculated on all assumptions regarding the repayment of the bonds making up the portfolio.
