Article 8

Carmignac Credit 2029 is a target maturity fixed income UCITS fund that follows a buy-and-hold strategy on credit markets. With a target performance objective⁽¹⁾, a predetermined maturity date, and a rigorous and diversified issuer selection, the Fund provides investors with visibility over their investment. Carmignac Credit 2029 targets an annualised performance (net of management fees) between its inception on 20/10/2023 and maturity on 28/02/2029, as described in the prospectus for each unit (over 4.22% for A EUR Acc and A EUR Ydis units). *The objective does not constitute a promise of return or performance, the performance is not guaranteed.*

KEY POINTS

A buy-and-hold strategy running until 2029, suited to a high interest rate environment while offering visibility on global credit markets⁽¹⁾.

A conviction-driven investment process that seeks to identify attractive premiums in different segments of the credit universe and build a diversified yet selective portfolio.

Risks that diminish over time and that are managed rigorously, given the target maturity and systematic hedging of currency risk.

RIGOROUS SELECTION OF ISSUERS IN A GLOBAL INVESTMENT SPACE

Carmignac Credit 2029 has access to the whole credit universe: it may invest in both developed and emerging markets, in securities with diverse risk/return profiles. In pursuit of its investment objective, the Fund ensures that its average rating is investment grade; ensuring the high quality of issuers in the portfolio and limited default risk.

MAIN RISKS OF THE FUND

CREDIT: Credit risk is the risk that the issuer may default. **INTEREST RATE:** Interest rate risk results in a decline in the net asset value in the event of changes in interest rates. **LIQUIDITY:** Temporary market distortions may have an impact on the pricing conditions under which the Fund might be caused to liquidate, initiate or modify its positions. **DISCRETIONARY MANAGEMENT:** Anticipations of financial market changes made by the Management Company have a direct effect on the Fund's performance, which depends on the stocks selected.

The Fund presents a risk of loss of capital.

INVESTMENT OBJECTIVE

Launch date: 20/10/2023

Objective: The Fund's investment objective is to offer annualised performance, net of management fees, from the Fund's inception until its maturity on 28/02/2029, of over:

- For A EUR Acc and A EUR Ydis units: 4,22%;
- For F EUR Acc and F EUR Ydis units: 4,72%;
- For AW EUR Acc and AW EUR Ydis units: 3,92%;
- For FW EUR Acc and FW EUR Ydis units: 4,42%.

This performance, mainly generated through a bond buy & hold strategy, is expressed net of management fees, currency hedging fees, estimated defaults and potential capital losses made when reselling certain instruments prior to maturity. This objective is based on the market assumptions made by the manager when the Fund is launched, and only applies to subscriptions at this time. For subsequent subscriptions, performance will depend on market conditions at that time, which we cannot predict and which may therefore result in divergent performance. **This objective does not constitute a promise of returns. Issuers' actual financial situation may be worse than expected and this may adversely affect the fund's performance.**
