

CARMIGNAC CHINA NEW ECONOMY

FRENCH MUTUAL FUND (FCP)

SEIZE THE GROWTH POTENTIAL OF CHINA'S NEW ECONOMY

Recommended
minimum investment
horizon:

5 YEARS

SFDR Fund Classification**:

Article 8

For several years, investors questioned the investability of China. Yet despite these doubts, the country has remained a defining force within emerging markets. **Carmignac China New Economy** is an equity fund (UCITS) seeking to capture the long-term growth potential of opportunities across Greater China (China, Hong Kong and Taiwan). This region is benefiting from new productive forces, including segments such as artificial intelligence, semiconductors, robotics, biotechnology and renewable energy. The Fund aims to outperform its reference indicator⁽¹⁾ over a recommended investment period exceeding five years. In addition, the Fund aims to gradually reduce the carbon emissions of its portfolio.

KEY POINTS

Investing with conviction:

Seeking companies in China's New Economy, which benefit from the country's economic transition and long-term reform.

Investing with selectivity:

Favouring domestic quality companies which have high growth visibility and a leading position in their respective sector.

Investing sustainably:

Analysing companies according to their financial profile but also their Environmental, Social and Governance (ESG) practices.

Investing with experience:

We have a strong expertise in Chinese investments since 1989.

OUR CONVICTIONS WITHIN CHINESE EQUITY MARKETS

China is the world's second-largest economy (17% of global GDP) and has the second-largest stock market after the United States (\$19 Tn market capitalisation⁽²⁾). In our view, China offers strong growth potential, driven by powerful long-term trends that we seek to capture within our Fund:

1.

Digitalisation and tech innovation – Looking to become independent and a leader

2.

Consumption upgrade – Growing domestic demand on the back of increasing purchasing power and rising living standards

3.

The Green revolution – Fighting pollution with the aim of being carbon neutral by 2060⁽³⁾

4.

Healthcare & medical innovation – Innovating to meet the needs of an ageing population and better healthcare

MAIN RISKS OF THE FUND

EQUITY: The Fund may be affected by stock price variations, the scale of which is dependent on external factors, stock trading volumes or market capitalization. **EMERGING MARKETS:** Operating conditions and supervision in "emerging" markets may deviate from the standards prevailing on the large international exchanges and have an impact on prices of listed instruments in which the Fund may invest. **CURRENCY:** Currency risk is linked to exposure to a currency other than the Fund's valuation currency, either through direct investment or the use of forward financial instruments. **LIQUIDITY RISK:** The Fund may hold securities with reduced market exchange volumes and which may, in certain circumstances, be relatively illiquid. The Fund is therefore exposed to the risk that it may not be possible to liquidate a position in the desired time frame and at the desired price.

The Fund presents a risk of loss of capital.

CHARGES

Share Class	One-time costs		Annual charges		Incidental costs ⁽⁵⁾
	Entry costs	Exit costs	Management fees and other administrative or operating costs	Transaction costs	Performance fees
F EUR Acc	—	—	1.3%	2.61%	20%
A EUR Acc	Max. 4%	—	1.85%	2.61%	20%

(5) Taken under specific conditions.

Entry costs: One-time cost you pay in when entering this investment. This is the most you will be charged. Carmignac Gestion doesn't charge any entry fee. The person selling you the product will inform you of the actual charge. **Exit costs:** We do not charge an exit fee for this product. **Management fees and other administrative or operating costs:** This estimate is based on actual costs over the past year. **Transaction costs:** This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on the quantity we buy and sell. **Performance fees:** Percentage max of the outperformance once performance since the start of the year exceeds that of the reference indicator, even if negative, and if no past underperformance still needs to be offset. The actual amount will vary depending on how well your investment performs. The estimate of aggregated costs above includes the average for the last five years, or since the creation of the product if it is less than five years old.
