Carmignac Portfolio Credit is an international fixed income UCITS that implements credit strategies across the globe. Its flexible and opportunistic style enables the Fund to implement a conviction-driven allocation. The fund aims to outperform its reference indicator⁽¹⁾ over a minimum recommended investment period of three years.

KEY POINTS

In search for optimal risk/return profile over the credit cycle thanks to a combination of macroeconomic analysis and rigorous bottom-up selection.

Conviction-driven, non-benchmarked philosophy: Portfolio construction is a result of Fund managers' views and market analysis with no bias to any benchmark.

Opportunistic and active approach: A flexible process aiming to swiftly adapt to changing scenarios and gain exposure to best exploit favorite ideas.

Risk management fully embedded in every step of the investment process on qualitative and quantitative basis.

BENEFIT FROM AN UNCONSTRAINED INVESTMENT APPROACH

FLEXIBLE ALLOCATION TO CREDIT MARKETS

The Fund's unconstrained nature derives mostly from its flexible allocation to its key performance drivers with no constraints in terms of regions, countries and sectors (25% net assets max for emerging markets).

RIGOROUS INVESTMENT PROCESS WITH RISK MANAGEMENT EMBEDDED IN EVERY STEP

MAIN RISKS OF THE FUND

CREDIT: Credit risk is the risk that the issuer may default.

INTEREST RATE: Interest rate risk results in a decline in the net asset value in the event of changes in interest rates.

LIQUIDITY: Temporary market distortions may have an impact on the pricing conditions under which the Fund might be caused to liquidate, initiate or modify its positions.

DISCRETIONARY MANAGEMENT: Anticipations of financial market changes made by the Management Company have a direct effect on the Fund's performance, which depends on the stocks selected.

The Fund presents a risk of loss of capital.

(1) of the amount you pay in when entering this investment. This is the most you will be charged. Carmignac Gestion doesn't charge any entry fee. The person selling you the product will inform you of the actual charge.

(2) We do not charge an exit fee for this product.

(3) of the value of your investment per year. This estimate is based on actual costs over the past year.

(4) of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on the quantity we buy and sell.

(5) when the share class overperforms the Reference indicator during the performance period. It will be payable also in case the share class has overperformed the reference indicator but had a negative performance. Underperformance is clawed back for 5 years. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years, or since the product creation if it is less than 5 years.

Bottom up investing: Investment based on analysis of individual companies, whereby that company's history, management, and potential are considered more important than general market or sector trends (as opposed to top down investing).

Credit cycle: A credit cycle describes the different phases of access to credit by borrowers. It alternates between periods of easily accessible funds to borrow due to low interest rates and periods of contraction where lending rules are more restrictive and interest rates are higher.

High yield: A loan or bond rated below investment grade because of its higher default risk. The return on these securities is generally higher.

Investment grade: A loan or bond that rating agencies have rated AAA to BBB-, generally indicating relatively low default risk.

Non-benchmarked: Portfolio construction is a result of Fund manager views and market analysis with no bias to any benchmark.
