PROVEN EXPERTISE IN INTERNATIONAL EQUITIES

A BOTTOM-UP APPROACH

Our international equity approach is based on a specific analysis of companies, driven by the convictions and expertise of our sector and regional specialists.

SEIZING INTERNATIONAL OPPORTUNITIES

Since it was founded in 1989, Carmignac has used geographic diversification to its advantage. We were among the first to identify the potential offered by emerging markets.

OVER 30 YEARS OF EXPERIENCE

The experience we have built up over the years allows us to identify growth trends worldwide. We have thus been able to anticipate the supercycles of commodities and technology and harness their potential.

HOW TO IDENTIFY LONG-TERM TRENDS

DISRUPTIVE INNOVATION

Businesses creating a new product or a new market disrupting existing models.
Example: artificial intelligence

TOP-DOWN OPPORTUNITIES

Businesses taking advantage of the macroeconomic conditions.
Example: the recession

LARGE-SCALE ROLLOUT OF A TREND

Businesses replicating the success of a phenomenon in other countries or other sectors.
Example: e-commerce in emerging countries

POLITICAL OR SOCIAL CHANGES

Companies capitalising on a structural trend change within the economy.
Example: reshoring of production activities
