

CARMIGNAC PORTFOLIO INFLATION SOLUTION

LUXEMBOURG SICAV SUB-FUND

F. Leroux

C. Moulin

P.-E. Bonenfant

A MULTI-ASSET SOLUTION FOR A NEW INFLATION ERA

Recommended minimum investment horizon: **5 YEARS**

SFDR Fund Classification**:

Article **6**

Carmignac Portfolio Inflation Solution (UCITS) is a global multi-asset fund designed to deliver returns above inflation over a five-year period. With ongoing demographic changes, geopolitical uncertainties, and disruptions in global trade, inflationary pressures are expected to persist. The Fund's strategy is designed not only to protect your purchasing power, but also to capture new opportunities by investing in assets often overlooked in conventional portfolios. By adapting proactively to new market cycles, it provides investors with meaningful diversification and resilience to their portfolios.

KEY POINTS

A portfolio built to achieve a **positive correlation to inflation**.

A **diversified global exposure** to benefit from the returned cyclicity of the economy.

A unique strategy, giving investors greater **diversification**.

Applying a **dynamic and active management** to neutralize disinflation phases.

TACKLING INFLATION WITH LONG-TERM VISION AND TACTICAL EXECUTION

The Fund is built with a long-term approach that considers deep shifts in the global economy and inflation trends. It also uses flexible, quantitative tools to adapt to changing market conditions.

MULTI-ASSET MANAGEMENT WITH 3 BUCKETS

A **core allocation** based on assets positively correlated to inflation.

A dedicated component linked directly to **future inflation expectations**, using financial instruments like inflation swaps.

A **tactical component** to neutralize disinflation phases.

CARMIGNAC
INVESTING IN YOUR INTEREST

* For the share class Carmignac Portfolio Inflation Solution A EUR Acc. Risk Scale from the KID (Key Information Document). Risk 1 does not mean a risk-free investment. This indicator may change over time. ** The Sustainable Finance Disclosure Regulation (SFDR) 2019/2088 is a European regulation that requires asset managers to classify their funds as either 'Article 8' funds, which promote environmental and social characteristics, 'Article 9' funds, which make sustainable investments with measurable objectives, or 'Article 6' funds, which do not necessarily have a sustainability objective. For more information please refer to <https://eur-lex.europa.eu/eli/reg/2019/2088/oj>.

STRUCTURAL INFLATION IS BACK — AND IT’S RESHAPING INVESTING

Long-term inflation forces like **demographics, geopolitics, and shifting social trends** have been back in play since 2020 — echoing the inflationary patterns of the 1970s.

Inflation often weighs on long-term passive investments, particularly in unprofitable growth areas.

The resurgence of cyclicality is reshaping how equities and bonds move together, making diversification harder to achieve. Yet this same **cyclicality can become a compass for active managers in their pursuit of lasting performance.**

MAIN RISKS OF THE FUND

DISCRETIONARY MANAGEMENT: Anticipations of financial market changes made by the Management Company have a direct effect on the Fund's performance, which depends on the stocks selected.

RISK OF CAPITAL LOSS: The portfolio does not guarantee or protect the capital invested. Capital loss occurs when a unit is sold at a lower price than that paid at the time of purchase.

CURRENCY: Currency risk is linked to exposure to a currency other than the Fund's valuation currency, either through direct investment or the use of forward financial instruments.

INTEREST RATE: Interest rate risk results in a decline in the net asset value in the event of changes in interest rates.

The Fund presents a risk of loss of capital.

(1) of the amount you pay in when entering this investment. This is the most you will be charged. Carmignac Gestion doesn't charge any entry fee. The person selling you the product will inform you of the actual charge.
(2) We do not charge an exit fee for this product.
(3) of the value of your investment per year. This estimate is based on actual costs over the past year.
(4) of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on the quantity we buy and sell.
(5) when the share class overperforms the Reference indicator during the performance period. It will be payable also in case the share class has overperformed the reference indicator but had a negative performance. Underperformance is clawed back for 5 years. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years, or since the product creation if it is less than 5 years.
(6) Please refer to the prospectus for the minimum subsequent subscription amounts. The prospectus is available on the website: www.carmignac.com
