INVESTMENT OBJECTIVE

Equity fund focused on stock-picking across European markets. The investment process is based on fundamental bottom-up analysis. Stock selection focuses on identifying and valuing the stocks of companies with attractive long-term growth prospects, as demonstrated by their high, sustainable profitability, ideally combined with internal or external reinvestment. Investments are then made in the names with appealing asymmetric risk/return profiles. The fund aims to outperform its reference indicator over 5 years and to generate capital growth, while implementing a socially responsible investment approach formalised by a sustainable investment objective.
